

STD Awareness PSA – Male Announcer 2 (:30)

[Male Announcer] If you're a man who has sex with other men, C-D-C recommends that you get tested for chlamydia, syphilis, gonorrhea, and H-I-V at least annually. Your doctor doesn't automatically test for S-T-Ds, so it's important that you *ask* to be tested. Make regular S-T-D testing a part of *your* life.

To find a testing center near you, visit [w-w-w-dot-find-S-T-D-test-dot-org](http://www.find-s-t-d-test-dot-org) or talk to your health care provider.

A message from C-D-C.
