Dlo-Dlo Sal 3 PSA (:60) (Water/Sewage 3)

Haitian Creole:
Dlo/Dlo Sal
Sa nou pwal di la se yon enfomasyon enpòtan de santé piblik pou ede'w fè prekosyon avèk dlo ouap bwè. Kote w abitye pran dlo nòmalman, ka danjere apre yon tranblemanntè, menmsi dlo a sanble l klè. Itilize dlo nan boutèy ki pa dekachte, dlo bouyi, oswa dlo trete avek 5 gout Klowòks ki sèvi nan kay nan 1 lit dlo pou bwè, pou kwit manje, pou fè vesèl, pou bwose dan w, epi pou lave men w. Bwè dlo ki nan boutèy sèlman lè bouchon an pa dekachte. Dlo ki nan boutèy ki deja dekachte kapab danjere. Gade boutèy la byen pou wè si li pa dekachte. Si li dekachte pa bwè l. Ti enfomasyon sa a ka sove la vi….pran anpil prekosyon.

English Translation:
Water/Sewage
The following is an important public health announcement about safe drinking water. Normal sources of water may be unsafe following the earthquake, even if the water looks clear. Use bottled water if the cap is sealed, boiled water, or treated water with 5 drops of household bleach to 1 liter of water for drinking, making food, washing dishes, brushing your teeth, and washing your hands. Only drink bottled water if the cap is sealed. Bottles with broken seals may contain unsafe water. Look if the cap of the bottled water is sealed. If the cap is not sealed, do not drink it. These tips can save lives….Be Safe.
