World AIDS Day 2010 PSA (:30)

December 1, 2010 is World AIDS Day, a day to raise awareness of the global impact of HIV and AIDS. This year's theme "Building on Success" focuses on the successes we've made to date in the fight against HIV, such as increased testing and linkages to treatment. To find a testing site, visit www.hivtest.org or text your zip code to KNOW-IT, that's 566948.

A message from CDC.
