

Maladi Kolera 2 PSA (:30) (Cholera 2)

Haitian Creole:

Maladi Kolera

Kolera bay gwo dyare, vomisman ak kranp nan janm. Kolera ka touye yon moun si moun sa a pa resevwa tretman medikal. Al kay doktè si w gen nenpòt nan sentòm ki endike ou ka gen kolera. Lave men w, imedyatman, avèk savon e ak dlo pwòp si w pran kontak avèk yon moun ki gen maladi kolera. Ti enfòmasyon sa a ka sove la vi....pran anpil prekosyon.

English Translation:

Cholera

Cholera causes severe diarrhea, vomiting and leg cramps. Cholera can kill without medical treatment. See a doctor if you have any of the signs of cholera. Immediately wash your hands with soap and clean water if you come in contact with someone sick with cholera. These tips can save lives....Be Safe.
