

Maladi Kolera PSA (:60) (Cholera)

Haitian Creole:

Maladi Kolera

Sa nou pwal di la se yon enfomasyon enpòtan de santé publik po ede'w. Kolera bay gwo dyare, vomisman ak kramp nan janm. Kolera ka touye yon moun, si moun sa a pa resevwa tretman medikal. Moun ka trape kolera nan manje ki gate, sitou nan kristase ki kri oswa ki pa byen kwit. Lave fwi ak legim fre avèk dlo ki bouyi pandan 1 minit oswa dlo ki trete avèk 5 gout klowòks ki sèvi nan kay. Pou anpeche kolera mete pye, lè wap prepare manje, bouyi l, kwit li, kale l, oswa blyiye l. Al kay doktè si w gen nenpòt nan sentòm ki endike ou ka gen kolera. Ti enfomasyon sa a ka sove la vi....pran anpil prekosyon.

English Translation:

Cholera

The following is an important public health announcement about your safety. Cholera causes severe diarrhea, vomiting and leg cramps. Cholera can kill without medical treatment. Cholera can come from bad food, especially raw or under-cooked shellfish. Wash raw fruits and vegetables with water that has been boiled for 1 minute or treated with 5 drops of household bleach. To prevent cholera when preparing food, boil it, cook it, peel it, or forget it. See a doctor if you have any of the signs of cholera. These tips can save lives....Be Safe.
