World AIDS Day PSA (:30)

December 1st is World AIDS Day, a day to raise awareness of the global impact of HIV and AIDS. Everyone between 13 and 64 should get tested, at least once. People at high risk for HIV should get tested more often. To find a testing site, visit www.hivtest.org or text your zip code to KNOW-IT, that's 5-6-6-9-4-8.

A message from CDC.
