

## **Danny Wuerffel on Guillain-Barré Syndrome and Zika PSA (:30)**

Hi, I'm Heisman trophy winner Danny Wuerffel. In 2011, I was sidelined by a rare condition called Guillain-Barré Syndrome that left me weak and unable to move for months. We know Zika can have devastating effects on pregnancy, including severe birth defects. But did you know Zika can also cause Guillain-Barré Syndrome? The good news is there are simple steps you can take to protect yourself, your community, and the next generation from Zika. Learn more at [CDC.gov/preventZika](https://www.cdc.gov/preventZika).
