

## Immunization PSA (:60) NEW MOM ADVICE

Young Mom: Ever notice, when you have a baby, *everyone* seems to give you advice? From your mother-in-law...

Mother-In-Law: Don't you know you can't take that baby out in the rain today? And where is her hat?

Young Mom: ....To your own parents...

Dad: You *should* take the baby outside every day, even in the rain....

Young mom: To your friends ...

Mom #2: You have got to get *this* diaper cream, it's so much better than the one you've been using...

Young Mom: When it comes to the important stuff, like immunizations and protecting my baby's health, I trust my baby's doctor. She really listens to my questions about shots, she gives me great information, and she works *with* me to make sure my baby gets protected. And that's something even my mother-in-law can agree with...

Mother-In-Law: Honey, I totally support you getting the baby vaccinated. But really, shouldn't you put the baby's hat back on?

A message from the U.S. Department of Health and Human Services.
