

## **We Can Stop HIV One Conversation at a Time Radio PSA [:30]**

[Narrator 1] HIV. It's not easy to talk about it, especially in our community.

[Narrator 2] But we must, because HIV affects more Latinos than we think.

[Narrator 1] We want our family to have the information we need to prevent it.

[Narrator 1] So we talk openly about HIV to make sure we have all the facts to protect ourselves.

[Narrator 1] We got over the embarrassment; our family's health and wellbeing comes first.

[Narrator 1] We can stop HIV, one conversation at a time. Get the facts and tips on how to start *your* conversation at [CDC.gov/ActAgainstAids](http://CDC.gov/ActAgainstAids).
