

One and Only Campaign Just Ask! PSA (:30)

[Healthcare Worker] Okay—now you're just going to feel a little stick.

[Announcer] Before you get an IV or injection, ask your healthcare provider if they've heard of the "One and Only" campaign to promote safe injection practices. Reuse of needles and syringes has exposed thousands of people to hepatitis C virus and other serious infections. Don't be embarrassed to ask a question that could protect your health, or even save your life. To find out more go to oneandonlycampaign.org. Do it today!
