

Safe and Unrefrigerated Food PSA (:30)

This is an important message from the U.S. Department of Health and Human Services.

After a storm or disaster, it's important to eat only safe food. Throw away perishables, like meat, poultry, fish, eggs, and leftovers stored above 40 degrees Fahrenheit for two hours or more. Throw away food with an unusual odor, color, or texture. Throw away food that may have come in contact with flood water, including food in swollen, punctured and damaged cans. When in doubt, throw it out.
